

New From Alvelogro

Stainless Steel Graft Material Syringe

Delivering graft material to surgical sites can be aided with this thin, curved syringe. It will hold approximately 1.6cc of graft material and can be re-autoclaved eliminating the expense of disposable, single use syringes. The Bone Carrier should be "back-loaded" from the bottom to prevent clogging due to natural variations in graft particle size.

#902 – Bone Carrier \$99.00
